## PREFACE

This is the third annual Devon bibliography. For the compilation of this bibliography we are again indebted above all to Ian Maxted, the West Country Studies Librarian, who supplied most of the entries, to Geoffrey Paley, who organised the material, and to Mrs Sigrid Drodge who typed the cards. The final typing was carried out by Celia Manning of the Department of Economic History, University of Exeter. James Gould was again responsible for the design.

Considerable efforts have been made to ensure that no relevant publication has been overlooked but nevertheless we may not have been completely successful. We would therefore urge authors, printers, publishers and readers to draw any omissions to our attention. Please let Geoffrey Paley know at the Devon & Exeter Institution, 7 The Close, Exeter and, if possible not only for 1982 but also for the years to come, please deposit copies in the Westcountry Studies Library, Exeter Central Library or the Devon & Exeter Institution. We would be very interested to learn if readers find this publication useful; could you kindly let us know?
